# Independent Auditors' Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based On An Audit Of Financial Statements Performed In Accordance With Government Auditing Standards

Board of County Commissioners Larimer County, Colorado Fort Collins, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Larimer County, Colorado (the County), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 28, 2017.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Compliance And Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose Of This Report**

Rubin Brown LLP

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report On Compliance** For Each Major Federal Program, Report On Internal Control Over Compliance And Report E info@rubinbrown.com On The Schedule Of Expenditures Of Federal Awards Required By The Uniform Guidance

**Board of County Commissioners** Larimer County, Colorado Fort Collins, Colorado

### Report On Compliance For Each Major Federal Program

We have audited the Larimer County, Colorado's (the County) compliance with the types of compliance requirements described in the Office of Management and Budget's OMB Compliance Supplement that could have a direct and material effect on each of Larimer's major federal programs for the year ended December 31, 2016. Larimer's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles and Audit Requirements for Federal Awards (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

## Opinion On Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2016.

# Report On Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2016-001, 2016-002 and 2016-003, that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs and the County's corrective action plan. The County's responses were not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# Report On Schedule Of Expenditures Of Federal Awards Required By The Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the County as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated June 28, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

RulinBrown LLP

July 6, 2017, except for our report on the schedule of expenditure of federal awards for which the date is June 28, 2017

#### **Explanatory Notes:**

- \* Direct Federal Assistance Programs.
- \*\* Federal Share Computed Using Percentages Provided by the State Department of Human Services
- (1) The expenditures for these grants include expenditures from prior years.

The County has no significant subrecipients.

\*\*\* Loan Balances as of 12/31/16:

Berthoud Estates \$ 904,042 Fish Creek \$ 276,001

Loan balances consist of Federal and State monies; however, expenditure amounts reported above include only the Federal portion

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Larimer County, Colorado for the year ended December 31, 2016 and is presented on the accrual basis of accounting. All federal awards received directly from federal agencies, as well as federal awards passed through other governmental agencies, are included on the schedule. The information in this schedule is presented in accordance with requirements of the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in preparation of, the basic financial statements

Larimer County has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, Section 414

# **Section II - Financial Statement Findings**

There were no findings related to the audit of the County financial statements that are required to be reported under *Government Auditing Standards*.

# Section III - Federal Award Findings And Questioned Costs

Finding 2016-001

Eligibility Significant Deficiency On Internal Control Over Compliance

CFDA 93.658 - Foster Care Title IV-E (Title IV-E)

Federal Agency: U.S. Department of Health and Human Services Federal Award Identification Number: OM-OPSO-2016-0006 Pass-Through Entity: Colorado Department of Human Services

Criteria Or Specific Requirement: The County is responsible for establishing internal controls over eligibility data to ensure recipients are in compliance with requirements of the grant.

**Condition:** Internal controls over the eligibility compliance requirement are the responsibility of management. The County did not have a documented process over its monitoring and oversight function in place where a person independent of the input process reviews eligibility information to ensure compliance with federal requirements.

*Cause:* Program personnel have the ability to approve applicants and enter eligibility information into the program database. There is no documentation of a review process in place for another person to verify application data was input in the database correctly.

*Effect:* There is potential for applicant data to be input incorrectly that would go undetected, resulting in funding for ineligible applicants.

**Questioned Costs:** Not applicable

**Context:** A nonstatistical sample of 3 months out of 12 months of eligibility files for documentation of the review of the eligibility files

*Identification As A Repeat Finding:* Not applicable

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended December 31, 2016

**Recommendation:** We recommend the County implement a documentation process over the monitoring and oversight function where a person independent of the input process would review and approve applicant information entered in the program database.

Views Of Responsible Officials And Planned Corrective Action: A monthly review/audit of IVE determined cases is conducted. The sample includes both initial determinations and re-determinations; sample size varies from 1-10 cases. Sample is selected based on the Administrative Review/Foster Care Review schedule. During a 12 month period, 100% of the IVE cases are reviewed and audited. Review of the cases is completed by the supervisor. While the reviews of the cases were being performed, there was no formal documentation maintained of the reviews. The supervisor will sign all audit/review documentation and maintain a file of audit documents.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended December 31, 2016

Finding 2016-002

Special Tests Significant Deficiency On Internal Control Over Compliance

CFDA 93.658 - Foster Care Title IV-E (Title IV-E)

Federal Agency: U.S. Department of Health and Human Services Federal Award Identification Number: OM-OPSO-2016-0006 Pass-Through Entity: Colorado Department of Human Services

Criteria Or Specific Requirement: Title IV-E agencies establish payment rates for maintenance payments (e.g., payments to foster parents, child care institutions or directly to youth). Payment rates may also be established for Title IV-E administrative expenditures (e.g., payments to child placement agencies or other contractors, which may be either subrecipients or vendors) and for other services. Payment rates must provide for proper allocation of costs between Foster Care maintenance payments, administrative expenditures and other services in conformance with the cost principles. The Title IV-E agency's plan approved by ACF must provide for periodic review of payment rates for Foster Care maintenance payments at reasonable, specific, time-limited periods established by the Title IV-E agency to assure the rate's continuing appropriateness for the administration of the Title IV-E program (42 USC 671(a)(11); 45 CFR Section 1356.60(a)(1) and (c)). The County is responsible for establishing controls over the rates charged for all types of Foster Care cases, including kinship maintenance rates.

**Condition:** Internal controls over the maintenance rates compliance requirement are the responsibility of management. The County does not have a process regarding signing of contracts for kinship payment rates and then a monitoring and oversight function in place for kinship maintenance rates to ensure compliance with federal requirements.

Cause: Contracts are not signed for kinship payment rates, therefore, there is no review process over the rates.

**Effect:** There is potential for rates to be paid that are not appropriate for the administration of the Title IV-E program.

Questioned Costs: Not applicable

**Context:** A nonstatistical sample of 9 cases out of 90 cases for documentation of the review of maintenance rates

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended December 31, 2016

*Identification As A Repeat Finding:* Not applicable

**Recommendation:** We recommend the County implement a review and approval process over all Foster Care rates determined by the County.

Views Of Responsible Officials And Planned Corrective Action: Rate agreements are signed by the kinship parent and Department. Larimer County rates are established based on the age of the child. Copies of the agreements have been maintained in the child's placement binder; the binder is maintained at the placement. This has been a requirement of the Colorado Department of Human Services. Rate agreements will be maintained at the Department and a copy will be provided to the kinship provider and rate agreements will then be submitted for review and stored the electronic case record (Onbase). Additionally, the Department will develop a Crystal Report for the purposes of identifying exceptions in the Trails system. This report will be developed in the next 3-5 months. Once developed, the report will run monthly for the review of kinship rates. Any identifying exceptions will be documented and a record will be maintained by the supervisor.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended December 31, 2016

Finding 2016-003

Allowable Costs Significant Deficiency On Internal Control Over Compliance

CFDA 93.667 SSBG, 93.778 Medicaid, 10.557 WIC Federal Agency: U.S. Department of Health and Human Services Federal Award Identification Number: OM-OPSO-2016-0006, 16FHLA82511 16FHLA82511, 16FHLA82272, 17FHLA92944

Pass-Through Entity: Colorado Department of Human Services

Criteria Or Specific Requirement: The County is responsible for verifying employment eligibility to comply with employment laws and to support allowed costs charged to federal programs.

**Condition:** For four employees selected in the sample tested, the original Employment Verification Form (I-9) was not located.

Cause: Due to lack of or failure of appropriate processes, the County was unable to locate the I-9.

**Effect:** Possible errors in conformance with employment law could lead to instances of noncompliance with grant requirements and questioned costs related to the payment of those employees' salaries, wages or benefits.

**Questioned Costs:** Not applicable

**Context:** A nonstatistical sample of 4 out of the 120 transactions was tested for documentation of allowable costs.

**Recommendation:** We recommend the County perform a periodic review of personnel files to ensure all I-9s are properly maintained.

Views Of Responsible Officials And Planned Corrective Action: Larimer County Payroll was unable to locate the original I-9 form for one employee. We did, however, produce the copy of the E-Verify document from the E-Verify internet-based system. The employee was hired on March 20, 2014 and the E-Verify case was submitted on March 20, 2014. Her employment was authorized by the E-Verify system. Per the audit recommendations, we will review our processes and consider a periodic review to assure we have I-9's for all employees.

#### SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS For The Year Ended December 31, 2016

**Finding 2015-001** 

**Significant Deficiency On Internal Control Over Compliance** 

CFDA 17.258, 17.259, 17.278 - WIA Cluster

Federal Agency: U.S. Department of Labor

Pass-Through Entity: Colorado Department of Labor and Employment

**Criteria Or Specific Requirement:** Per the Procurement, Suspension, and Debarment compliance requirement, nonfederal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include those procurement contracts for goods and services awarded under a nonprocurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other specified criteria. When a nonfederal entity enters into a covered transaction with an entity at a lower tier, the nonfederal entity must verify that the entity is not suspended or debarred or otherwise excluded. This verification may be accomplished by checking the Excluded Parties List System maintained by the General Services Administration, collecting a certification from the entity or adding a clause or condition to the covered transaction with that entity (2 CFR Section 180.300).

**Status:** The County has updated their policies and procedures regarding internal review of vendors and determining if those vendors are federally debarred and implemented these procedures during the current year.
